

## Memorials Available for Donation

Updated 10/27/2014

We hope that all parishioners first contribute to plate income (ordinary collection – to pay regular expenses) and the loan repayment fund (to pay back our loan) before making donations to memorials.

All money donated to memorials is put into a restricted account and will only be used for the purchase of memorials. Memorials will be purchased once they are fully funded. Pricing for memorials is somewhat above the actual cost of the item. This extra donation allows us to set aside money so that we may purchase those memorials that were donated prior to 2009 whose purchase was deferred because those funds were needed to help construct the church. Any money donated for memorials already installed will also be used to purchase deferred memorials.
